

Dr. Naveen Deshpande was raised in Oakville, Ontario and received his MD from Queens University in April 2004. He came to UBC as a Neurology resident later that year. In 2006, he developed leukemia and after taking a year's leave of absence, Naveen returned to work as a co-chief resident, only to suffer a relapse in March 2009. Sadly, Naveen passed away on October 13, 2009 and will always be remembered for his optimism, his concern for others and his courage. Naveen was a wonderful person, an excellent doctor and is dearly missed by all who knew him.

It was Naveen's desire to leave a legacy that would encourage resident education and foster opportunities that bring staff and residents together. So in his memory, after consultation with him, we have established an annual lectureship with the purpose of bringing to UBC a leading figure in Neurology who can serve as a catalyst to stimulate enthusiasm and discussion between residents and faculty. We believe this is the best way we can honour Naveen's memory and let his family know that he will not be forgotten.

The lectureship is seen as a major academic event in our Division's yearly activities and the invitees are selected based on their capacity to serve as role models for residents and staff, their commitment to education and their recognition as compassionate and ethical clinician-educators.

*If you would like to contribute to the Naveen Deshpande Neurology Lectureship please contact Kitty Pong at [kitty.pong@vch.ca](mailto:kitty.pong@vch.ca) and make the cheque payable to "UBC Division of Neurology".*

## 4<sup>th</sup> Annual Naveen Deshpande Neurology Lectureship

October 30, 2013 Neuroscience Grand Rounds

October 31, 2013 Half Day Teaching

## Program

### Wednesday, October 30<sup>th</sup>, 2013 Neuroscience Grand Rounds

*The Cordula and Gunter Paetzold Auditorium, Main Floor,  
Jim Pattison Pavilion, VGH*

- 8:00 Welcome  
*Dr. Jon Stoessl, Division Head*
- 8:15 Guest Speaker Lecture  
*Dr. C. Warren Olanow: "Parkinson's Disease and Prions –  
the story unfolds"*
- 9:00 Coffee Break
- 9:15 Resident Presentation  
*Dr. Wei-Qiao Liu, R5 Neurology Resident: "Mystery  
Diagnosis: CANVAS"*

### Thursday, October 31<sup>st</sup>, 2013 Half Day Teaching by Dr. C. Warren Olanow

*Multi Purposes Room,  
The Cordula and Gunter Paetzold Health Education Centre,  
Main Floor, Jim Pattison Pavilion, VGH*

- 9:00 Case Presentations and Discussion  
*Dr. Silke Cresswell & Dr. C. Warren Olanow*
- 10:00 Neurology Half Day Teaching: Talk  
*Dr. C. Warren Olanow: "A Current Definition of  
Parkinson's Disease"*
- 11:00 Buffet Lunch

## Dr. C. Warren Olanow's Bibliography

C. Warren Olanow, M.D., FRCPC is the Henry P. and Georgette Goldschmidt Professor and Chairman Emeritus of the Department of Neurology, and Professor in the Department of Neuroscience at the Mount Sinai School of Medicine in New York City. He is also Visiting Professor in the Department of Neurology at the University of California, San Francisco.

He received his medical degree from the University of Toronto, performed his neurology training at the New York Neurological Institute at Columbia Presbyterian Medical Center at Columbia University, and did post-graduate studies in neuroanatomy at Columbia University. He served on the faculties of McGill University, Duke University, and the University of South Florida prior to joining Mount Sinai.

He is Past President of the Movement Disorder Society, Past President of the International Society of Motor Disturbances and Past Treasurer of the American Neurological Association. He has been named an Honorary Professor at the University of London (Royal Free Hospital), an Honorary Member of the French Neurological Society, and an honorary fellow of the Royal College of Physicians of the United Kingdom. He is the recipient of the Presidential Award from the Movement Disorder Society, and the research award in Movement Disorders from the American Academy of Neurology. He serves on the Board of Directors of the National Space Biomedical Research Institute, is a member of the executive committee of the Michael J Fox Foundation Scientific Advisory Board, is the past Chairman of the Scientific Advisory Board of the Bachmann-Strauss Foundation and has served on numerous additional medical and scientific advisory boards. He has also served on several editorial boards, and is presently Co-Editor-in-Chief of the journal *Movement Disorders*.

His clinical and basic science research efforts are directed toward defining more effective therapies for Parkinson's disease and other neurodegenerative disorders. Dr. Olanow has authored more than 350 publications, and was ranked #1 in the United States in research citations for Parkinson's disease during the past quarter century. He has lectured on movement disorders at Universities and Conferences throughout the world.
